

Allegato alla domanda di partecipazione
Curriculum formativo, didattico, scientifico e professionale del candidato

Dichiarazione sostitutiva di certificazioni

(Art. 46, D.P.R. 28 dicembre 2000 n. 445)

Dichiarazione sostitutiva dell'atto di notorietà

(da sottoscrivere davanti all'impiegato addetto o da presentare o spedire con la fotocopia di un documento di identità)
(Art. 47, D.P.R. 28 dicembre 2000 n. 445)

Estremi del bando di selezione	N° 651/2025 del 23/06/2025
Informazioni aggiornate al	02.07.2025
Nome e Cognome	Seyedeh Shaghayegh Alavi
Data di nascita	

Si raccomanda di indicare con precisione tutti gli elementi valutabili ai sensi del bando di selezione (aggiungere o togliere righe secondo necessità).

Esperienza professionale

Periodo	Ente	Principali attività e responsabilità
03.2025-current	University of Cagliari, Department of Life and Environmental Sciences	Role: visiting researcher (MAECI Study in Italy 2024 awardee) Research topics: milk-derived exosomes for the intestinal delivery of antioxidant molecules Core activities: <ul style="list-style-type: none">• Running design of experiment for the optimization of nanoparticles extraction/production processes• Performing physico-chemical analysis of nanocarriers (Dynamic Light Scattering, Electrophoretic Light Scattering)• Performing in vitro release tests (dialysis membranes)• Data analysis, report production, manuscript preparation
04.2021-02.2025	University of Teheran, Department of Food Sciences and Technology	Role: Research Associate. Research topics: encapsulation and targeted delivery of bioactive compounds, particularly polyphenols. Core activities: <ul style="list-style-type: none">• Designing and conducting experiments and analyzing results related to the encapsulation and controlled release of bioactives using advanced techniques (UV-vis spectroscopy, ultrasonication systems, rotary evaporators, HPLC, microplate reader).• Use of DoE softwares (Minitab, Design Expert) for the optimization of biomass extraction processes• Supervising and mentoring Master's students, guiding them in experimental design, data interpretation, and thesis development.• Writing and contributing to competitive grant applications and collaborative research proposals.• Optimization and modeling of formulation parameters and delivery systems to enhance bioavailability and stability of bioactives.• Managing daily lab operations, including inventory control, safety protocols, and equipment maintenance.• Assisting in manuscript preparation and maintaining compliance with project timelines and ethical standards.

04.2020-03.2021	Sugarcane and Byproducts Development Company, Research and Training Center, Ahvaz (Iran)	<p>Role: quality control analyst in the food chemistry laboratory</p> <p>Core activities:</p> <ul style="list-style-type: none"> • Measure of pH, electrical conductivity, and total soluble solids in sugarcane juice and derived products • Determine titratable acidity to assess organic acid content and product stability. • Determine reducing and total sugar content in sugarcane juice and processed products using classical titration methods in accordance with Iran National Standards (INSO) or ICUMSA methods. • Assess ash content and moisture levels in solid sugarcane by-products through gravimetric methods. • Prepare and standardize chemical reagents and calibration curves for quantitative assays. <p>Role: quality control analyst in the Food Microbiology Laboratory</p> <p>Core activities:</p> <ul style="list-style-type: none"> • Work in a certified ISO/IEC 17025-accredited laboratory, ensuring all microbiological analyses met international standards for testing reliability, accuracy, and traceability. • Collaborate with the Institute of Standards and Industrial Research of Iran (ISIRI); regularly receive official food and beverage samples (e.g., sugarcane juice, molasses, vinegar) for third-party microbiological evaluation and certification. • Perform Total Plate Count (TPC) to assess the microbial load in accordance with ISIRI and Codex protocols. • Conduct Yeast and Mold Enumeration using acidified PDA or SDA for spoilage monitoring and fermentation control. • Analyze Coliforms and <i>E. coli</i> using Most Probable Number (MPN) and selective agar methods in compliance with ISIRI guidelines for hygienic indicators. • Participate in proficiency testing and internal validation protocols as required by ISO/IEC 17025 accreditation to ensure consistent laboratory performance. • Maintain meticulous records, ensure equipment calibration, and follow strict SOPs to uphold audit readiness and result credibility.

Istruzione, formazione (es. titoli di studio, certificazioni professionali/linguistiche/informatiche)

Data	Titolo / Principali tematiche	Ente
05.02.2020	Ph.D./ Food Science - biotechnology Thesis title: Investigation of Punicalagins Encapsulation by Chitosan-Alginate Complexes and Proniosomal Systems	University of Teheran, Iran
01.2018-06.2019	Visiting Ph.D. student in the Department of Life and Environmental Sciences	University of Cagliari, Italy
22.09.2013	MSc./Food Science-Food Technology	Islamic Azad University, Science and Research branch, Teheran, Iran
19.02.2010	BSc./Food Science	Khuzestan University of Agricultural and Natural Resources, Ahvaz, Iran
09.12.2016	MSRT (MCHE) English Language Test (74/100)
